

STUDEBAKER CHAMPION CLUB SEDAN

STUDEBAKER COMMANDER CRUISING SEDAN

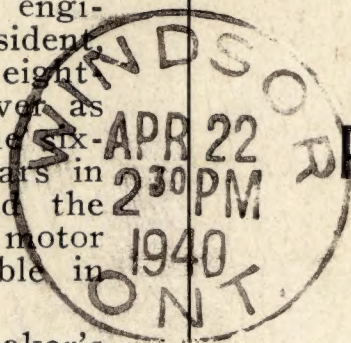

STUDEBAKER PRESIDENT COUPE

The automobile headline of the year! For 1940, Studebaker offers three beautiful, brilliantly engineered new cars—the new Studebaker President, Commander, and Champion. The economical eight-cylinder President is recognized the world over as one of the finest luxury automobiles built; the six-cylinder Commander is far ahead of other cars in its class in economy and performance; and the Champion, priced with the lowest, rewrote motor history by making a truly fine car available in the lowest price field.

Let us show you the records of Studebaker's "grand slam" in the 1940 Gilmore-Yosemite Economy Run — America's premier gas economy test sponsored by the A.A.A. Studebaker's three great cars finished 1-2-3 in the Sweepstakes as well as capturing "firsts" in their price classes.
